Contents of *Forest Ecology and Management*, Volume 152

VOLUME 152, ISSUES 1–3 **15 OCTOBER 2001**

Short-term predictions of growth of *Pinus radiata* with models incorporating indices of annual climatic variation
P. Snowdon (Canberra, Australia) 1
Experimental manipulation of spatial heterogeneity in Douglas-fir forests: effects on squirrels
A.B. Carey (Olympia, WA, USA) 13
Age, size structure and spatial pattern of major tree species in an old-growth *Chamaecyparis obtusa* forest, Central Japan
D. Hoshino (Nagoya, Japan), N. Nishimura (Okayama, Japan) and S. Yamamoto (Nagoya, Japan) 31
Managing genetic resources of lodgepole pine in west-central Alberta: patterns of isozyme variation in natural populations and effects of forest management
S.E. Macdonald, B.R. Thomas, D.M. Cherniawsky and B.G. Purdy (Edmonton, Canada) 45
Reproductive ecology of *Aquilaria* spp. in Indonesia
T. Soehartono (Jakarta, Indonesia) and A.C. Newton (Edinburgh,, UK) 59
Tree damage, allometric relationships, and above-ground net primary production in central Amazon forest
J.Q. Chambers (Irvine, CA, USA and Amazonas, Brazil), J. dos Santos, R.J. Ribeiro and N. Higuchi (Amazonas, Brazil) 73
Loblolly pine needle decomposition and nutrient dynamics as affected by irrigation, fertilization, and substrate quality
F.G. Sanchez (Research Triangle Park, NC, USA) 85
Ecosystem modeling and dynamic effects of deforestation on trace gas fluxes in Amazon tropical forests
C. Potter (Moffett Field, CA, USA), E. Davidson, D. Nepstad (Woods Hole, MA, USA) and C.R. de Carvalho (Para, Brazil) . . . 97
Fire mapping in a northern boreal forest: assessing AVHRR/NDVI methods of change detection
T.K. Remmel and A.H. Perera (Sault Ste. Marie, Canada) 119
A new model for cork weight estimation in Northern Portugal with methodology for construction of confidence intervals
T.J.F. Fonseca (Vila Real, Portugal) and B.R. Parresol (Asheville, NC, USA) 131
Estimating foliage biomass in a natural deciduous broad-leaved forest area in a mountainous district
S. Tatsuhara and H. Kurashige (Niigata, Japan) 141
A comparison of overstory density measures for describing understory conifer growth
T.J. Brandeis, M. Newton and E. Cole (Corvallis, OR, USA) 149
Soricid abundance in partial overstory removal harvests and riparian areas in an industrial forest landscape of the central Appalachians
Mark Ford W. and J.L. Rodrigue (Parsons, WV, USA) 159
An evaluation of direct seeding for reforestation of degraded lands in central São Paulo state, Brazil
V.L. Engel (Botucatu, Brazil) and J.A. Parrotta (Río Piedras, PR, USA) 169
Denitrification, leaching and immobilisation of ^{15}N-labelled nitrate in winter under windrowed harvesting residues in hoop pine plantations of 1–3 years old in subtropical Australia
G. Pu (Australia and Nathan, Australia), P.G. Saffigna (Australia, Nathan, Australia and Gatton, Australia) and Z. Xu (Australia and Gympie Australia) 183
Intercropping legume trees with native timber trees rapidly restores cover to eroded tropical pasture without fertilization
J. Doland Nichols (Lismore, Australia), M.E. Rosemeyer (Madison, WI, USA), F. Lynn Carpenter (Irvine, CA, USA) and J. Kettler (Boston, MA, USA) 195
Control of transpiration in a 220-year-old *Abies amabilis* forest
T.A. Martin, K.J. Brown (Seattle, WA, USA), J. Kučera (Brno, Czech Republic), F.C. Meinzer (Corvallis, OR, USA), D.G. Sprugel and T.M. Hinckley (Seattle, WA, USA) 211
American chestnut sprout survival with biological control of the chestnut-blight fungus population
S.L. Anagnostakis (New Haven, CT, USA) 225

PII: S0378-1127(01)00736-8

A crown model for simulating long-term stand and gap dynamics in northern hardwood forests
J. Choi, C.G. Lorimer, J. Vanderwerker, W.G. Cole and G.L. Martin (Madison, WI, USA) 235
Shrub community development and annual productivity trends over a 100-year period on an industrial forest of Northern Idaho
M.W. Alldredge, J.M. Peek (Moscow, ID, USA) and W.A. Wall (Lewiston, ID, USA) 259
Assessing forest productivity at local scales across a native eucalypt forest using a process model, 3PG-SPATIAL
P.K. Tickle (Kingston, Australia), N.C. Coops (Melbourne, Australia), S.D. Hafner (Kingston, Australia) and The Bago Science Team 275
The effects of roading, harvesting and forest regeneration on streamwater turbidity levels in a moist eucalypt forest
P.M. Cornish (Beecroft, Australia) 293
Potential genetic gains for carbon sequestration: a preliminary study on radiata pine plantations in New Zealand
K.J.S. Jayawickrama (Rotorua, New Zealand) 313
Short-term boron deficiency in a black spruce (*Picea mariana* [Mill.] B.S.P.) plantation
J.B. White and H.H. Krause (Fredericton, Canada) 323
Application of response surface methodology and ANOVA to detect pollution effects on photosynthetic response under varying temperature and light regimes
B. Momen (College Park, MD, USA), P.D. Anderson (Rhinelander, WI, USA) and J.A. Helms (Berkeley, CA, USA) 331
